MASTER OF EDUCATION

Leadership In Teaching And Learning

This program provides classroom teachers with the increased knowledge, improved skills and enhanced dispositions for leadership while integrating work in the classroom. These essential elements will provide teachers with the skills needed to lead in the classroom, on teams throughout schools, in the district, state and nationally.

WHY THE MIDLAND MED?

Applicable >

Coursework and final action research project are relevant content you can apply in your classroom!

Affordable >

Many scholarships available with affordable tuition.

Available >

You decide when and where your learning will take place. Peers and professors provide timely reflections and feedback enhancing your learning experience.

As a practicing educator, I appreciate having online classes. My professors allowed me to tailor the program so that I was able to get the most out of my degree!

Called to Teach
LEARN TO LEAD

Mark Seaberg
Humanities Department
Northwest High School

In Midland's Master of Education program, I have had the opportunity to learn from teachers who have expertise and broad experiences much different than my own. The texts used for the courses are excellent selections from which to draw knowledge, and have led to considerable reflection about our own instructional practices and motives in the classroom.
